Our Mission

We are on this crazy mission to build our dream home. We're doing this in a unique way, though. Instead of going to a builder, we decided to get our hands dirty and learn the business of full-gut renovations. Every time we renovate a property, we learn more about what we really want in a home – from the materials to the fixtures to the layout.

And you know what's cool? As we turn those blah properties into affordable luxury homes for awesome families, we're making significant strides toward our own dream homes. It's like a win-win situation – the buyers get a sweet home, and we get to refine our tastes with every project.

So, imagine us demoing walls, managing operations, crafting design, and diving into the chaos of renovation like Samri in a foam pit! We'll also share our "how-to" with you in our Run The Play Series. With every wall we knock down and every tile we lay during these full-gut renovations, we're not just building houses – we're building dreams, both for others and for ourselves. And let me tell you, there's nothing quite like the satisfaction of turning a rundown house into a beautiful home that a family will cherish for years to come.

So, here's to the crazy ones, the dreamers, and the doers – because with every nail we hammer, we're not just creating homes, we're crafting our future. "What A Fabulous Life."
